I am Perry from waikiki school, that is the same school of Duke Kahanamoku was in my school like really really long ago. I'm hoping it can construct the Pool so everyone can see and I make everyone get off technology and swim free but don't forget to make sure no any animal fish shark in the Pool.

Here is the Picture of what how it looks like

Dear Aloha Department of Design and Construction Staff, 755105

I am a student at Waikiki School. Which is the same school Duke Kahanamoku was a student at, over a hundred years ago. I heard from a lot of my classmates that Kaimana Beach is really beautiful even though I never went there which I want to get a chance. But I also heard that there is a pool and it is the at the Waikiki War Memorial Natatorium. They said that the deck on the pool was not safe to walk on. I really like to swim so I really hope that you can fix the deck on the pool.

Hi! I'm a student from Waikiki School. I think you should restore the deck at the Waikiki War Memorial Natatorium because it can hold swim races and you can practice swimming there! Some Olympic-sized pools cost money to swim in but if we open this one, then people can swim for free. It is good for the environment because it uses salt water from the beach unlike chlorine water, which has chemicals in it. It would be really neat if we could swim in a place that has been around for 100 years and Duke Kahanamoku swam in it!

Dear Waikiki Elementary School Students:

Subject: Response to Comments on the Draft Environmental Impact
Statement for the Waikiki War Memorial Complex

Thank you for participating in the Hawaii Revised Statutes Chapter 343 Environmental Impact Statement process by providing comments on the Draft Environmental Impact Statement (DEIS) for the Waikiki War Memorial Complex (WWMC), which was published by the State of Hawaii Office of Environmental Quality Control (OEQC) on November 8, 2018. We note that most of the students' responses support the rehabilitation of the Natatorium structure as described as the Perimeter Deck or Closed System Pool in the DEIS.

The Mayor and his staff certainly appreciate the beautiful drawings and expressed interest that the 5th grade students of Waikiki Elementary School provided. Their drawings and comments will be included in the Final EIS, anticipated to be published in the fall of 2019 and made available on the OEQC's website at:

http://oeqc2.doh.hawaii.gov/EA_EIS_Library/Forms/AllItems.aspx

Thank you for your interest in this project.

Very truly yours,
